MESSAGE FROM REGISTRAR

Ever since its inception, Indira Gandhi Delhi Technical University for Women has been striving for excellence in all aspects of a student's life - from employment to entrepreneurship, from professional acumen to academic excellence, from social sensibility to personal development. It fills me with true pride and happiness to see the graduates of this university doing so well in their lives.

At IGDTUW, we take an interdisciplinary approach towards education - where integrity stands at the heart of all our endeavors. Our students embody this spirit in everything they do - on campus and in their careers. A hub of diverse ideas and students with varied interests, IGDTUW provides its students with the perfect platform to groom themselves for the world - stepping out as strong, independent women cognizant of their role and responsibilities in shaping the future and giving back to society. This unique blend of varied capabilities hasn't gone unnoticed by the big players of the industry and it is with great pride that we say that you can find at least one IGDTUW woman in the offices of all the companies that are driving innovation today.

I extend my heartiest congratulations to the placement team for ensuring that our talented students find the perfect place to exercise and showcase their immense talents.
